

## SEABOURN UNVEILS NEW 2026 SOLAR ECLIPSE SAILINGS; PROVIDING GUESTS A UNIQUE VIEWING OPPORTUNITY AT SEA FROM NORTHERN EUROPE AND THE MEDITERRANEAN

September 19, 2024

*The ultra-luxury cruise line unveils two new voyages for viewing the 2026 total solar eclipse on Seabourn Ovation and Seabourn Sojourn*

SEATTLE, Sept. 19, 2024 /PRNewswire/ -- **Seabourn**, the leader in ultra-luxury voyages and expedition travel, unveils two new Solar Eclipse cruises exploring Northern Europe and the Mediterranean in late summer 2026. On August 12, 2026, as the moon passes between Earth and the sun to create a total solar eclipse, both *Seabourn Ovation* and *Seabourn Sojourn* will be strategically aligned to grant guests a unique viewing opportunity of the rare spectacle. Guests' eclipse viewing experience may change based on weather or cloud coverage.

"The viewing of the solar eclipse from our ultra-luxury ships will be an unforgettable 'Seabourn Moment' for everyone on board," said Natalya Leahy, president of Seabourn. "Our team has curated a series of captivating, eclipse themed Seabourn Conversations and experiences, turning this celestial event into an extraordinary celebration for everyone on board."

### Two Eclipse Viewing Opportunities

According to the National Solar Observatory of the U.S. National Science Foundation, the 2026 total eclipse will pass over the Arctic Ocean, Greenland, Iceland, the Atlantic, Portugal, and Spain. Seabourn will strategically align *Seabourn Ovation* and *Seabourn Sojourn* to give guests a unique viewing opportunity of the cosmic phenomenon.

- *Seabourn Ovation* will sail a **14-day West Ireland Gems & Solar Eclipse** voyage, departing on August 8, 2026, from Dover, England, to Reykjavik, Iceland. The ship will visit unique ports in Western Ireland, including Galway and Killybegs, and position itself off the coast of Ireland in the Atlantic Ocean to view the eclipse. Seabourn will also host a special Seabourn Conversations program featuring Jane A Green, Fellow of the Royal Astronomical Society, to educate guests about the solar eclipse. The two-week cruise is one of several that *Seabourn Ovation* is scheduled to undertake in Northern Europe in summer 2026.
- Guests can watch the total solar eclipse unfold as *Seabourn Sojourn* explores the Mediterranean on the **10-Day Spanish Gems & Solar Eclipse**, sailing roundtrip from Barcelona on August 7, 2026, to Spanish Morocco, St. Tropez, and destinations along the coast of Spain. The all-new eclipse-themed voyage will find *Seabourn Sojourn* positioned in the Balearic Sea off the coast of Spain as the eclipse commences, which will be visible closer to the horizon near sunset. Seabourn will host a special Seabourn Conversations program, featuring Dallas Campbell, a science presenter, author and broadcaster who will educate guests about the solar eclipse.

The viewing experience may change based on weather or cloud coverage.

Seabourn guests will experience the unparalleled, all-inclusive 'Seabourn Difference' on board the line's intimate ships with a private yacht-like atmosphere. Both *Seabourn Ovation* and *Seabourn Sojourn* are equipped with SpaceX's Starlink, the leader in Low Earth Orbit (LEO) satellite technology, to provide greater connectivity for guests to share their experiences with friends and family.

The 2026 solar eclipse cruises and the rest of the Europe 2026 season will be open for sale on October 10, 2024. For more details about Seabourn, or
