None ----- (Former name and former address, if changed since last report)	None ----- (Former name and former address, if changed since last report)

Item 5. Other Events and Regulation FD Disclosure.

On June 25, 2003 Carnival Corporation & plc issued a press release entitled "Carnival Corporation & plc Reports Second Quarter Earnings" attached hereto as Exhibit 99.1.

As a technical requirement, the information in the table entitled "Carnival Corporation - Regulation G Information" attached hereto as Exhibit 99.2 is hereby incorporated by reference to supplement Carnival Corporation's Current Reports on Form 8-K, dated December 19, 2002 and March 21, 2003, which included Carnival Corporation's earnings releases for the three and twelve months ended November 30, 2002 and for the three months ended February 28, 2003, respectively, in order to comply with Regulation G, as adopted by the Securities and Exchange Commission.

On June 19, 2003, P&O Princess Cruises International Limited ("POPCIL"), the principal direct operating subsidiary of Carnival plc, entered into a Deed of Guarantee (the "POPCIL Deed of Guarantee") under which it agreed to guarantee all of the indebtedness and related obligations of Carnival plc and Carnival Corporation incurred under agreements entered into after April 17, 2003. Under the POPCIL Deed of Guarantee, POPCIL also agreed to guarantee any indebtedness and related obligations that Carnival Corporation or Carnival plc

agree in writing to cover under their respective guarantees entered into in connection with the DLC transaction. Subject to some amendments being made to certain outstanding indebtedness of Carnival plc, Carnival Corporation expects to guarantee all or a substantial portion of Carnival plc's outstanding indebtedness and Carnival plc expects to guarantee all or a substantial portion of Carnival Corporation's outstanding indebtedness. If these cross guarantees are issued, the POPCIL guarantee described above would automatically extend to the guaranteed indebtedness of Carnival plc and Carnival Corporation.

Item 7. Financial Statements, Pro Forma Financial Information and Exhibits.

Exhibit 99.1 Press release entitled "Carnival Corporation & plc Reports Second Quarter Earnings" dated June 25, 2003.

Exhibit 99.2 Carnival Corporation - Regulation G Information.

Exhibit 99.3 Carnival Corporation & plc Pro Forma Consolidated Statements of Operations and Carnival Corporation & plc Pro Forma Net Cruise Revenues and Net Cruise Costs.

Item 9. Regulation FD Disclosure.

The following information is furnished pursuant to Item 9, "Regulation FD Disclosure," and Item 12, "Results of Operations and Financial Condition."

Attached hereto as Exhibit 99.3 are the "Carnival Corporation & plc Pro Forma Consolidated Statements of Operations" and "Carnival Corporation & plc Pro Forma Net Cruise Revenues and Net Cruise Costs" for each of the three months ended February 28, 2003 and 2002, May 31, 2003 and 2002, August 31, 2002 and November 30, 2002; and for the six months ended May 31, 2003 and 2002; and for the twelve months ended November 30, 2002.

The pro forma consolidated statements of operations gives pro forma effect to the dual listed company ("DLC") transaction between Carnival Corporation and Carnival plc, which was completed on April 17, 2003. This pro forma data has been furnished in advance of when it is required to be presented in the Carnival Corporation & plc consolidated financial statements in accordance with certain of the pro forma disclosure requirements of Statement of Financial Accounting Standards No. 141, "Business Combinations."

The pro forma information described above is being furnished solely for informational purposes and Carnival Corporation and Carnival plc do not intend for any of this information to be incorporated by reference into filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended.

Cautionary note concerning factors that may affect future results  
Some of the statements contained in this joint Current Report on Form 8-K are "forward-looking statements" that involve risks, uncertainties and assumptions with respect to Carnival Corporation, Carnival plc and Carnival Corporation & plc, including some statements concerning future results, plans, goals and other events which have not yet occurred. You can find many, but not all, of these statements by looking for words like "will," "may," "believes," "expects," "anticipates," "forecast," "future," "intends," "plans," and "estimates" and for similar expressions. Because forward-looking statements, including those which may impact the forecasting of earnings per share, net revenue yields, booking levels, pricing, occupancy, operating, financing and tax costs, costs per available lower berth day, estimates of ship depreciable lives and residual values or business prospects, involve risks and uncertainties, there are many factors that could cause Carnival Corporation's, Carnival plc's and Carnival Corporation & plc's actual results, performance or achievements to differ materially from those expressed or implied in this announcement. These factors include, but are not limited to, the following: achievement of expected benefits from the DLC transaction; risks associated with the DLC structure; liquidity and index inclusion as a result of the implementation of the DLC structure, including a possible mandatory exchange of Carnival plc shares that may occur under Carnival plc's constituent documents; risks associated with the uncertainty of the tax status of the DLC structure; general economic and business conditions, which may impact levels of disposable income of consumers and the net revenue yields for cruise brands of Carnival Corporation & plc; conditions in the cruise and land-based vacation industries, including competition from other cruise ship operators and providers of other vacation alternatives and increases in capacity offered by cruise ship and land-based vacation alternatives; the impact of operating internationally; the international political and economic climate, the recent military action in Iraq, other armed conflicts, terrorist attacks, availability of air service and other world events and adverse publicity and their impact on the demand for cruises; accidents and other incidents at sea

affecting the health, safety, security and vacation satisfaction of passengers; the ability of Carnival Corporation & plc to implement its shipbuilding programs and brand strategies and to continue to expand its businesses worldwide; the ability of Carnival Corporation & plc to attract and retain shipboard crew and maintain good relations with employee unions; the ability to obtain financing on terms that are favorable or consistent with Carnival Corporation & plc's expectations; the impact of changes in operating and financing costs, including changes in foreign currency and interest rates and fuel, food, insurance and security costs; changes in the tax, environmental, health, safety, security and other regulatory regimes under which Carnival Corporation & plc operates; continued availability of attractive port destinations; the ability to successfully implement cost improvement plans and to integrate business acquisitions; continuing financial viability of Carnival Corporation & plc's travel agent distribution system; weather patterns or natural disasters; and the ability of a small group of shareholders effectively to control the outcome of shareholder voting.

Forward-looking statements should not be relied upon as a prediction of actual results. Subject to any continuing obligations under applicable law or any relevant listing rules, Carnival Corporation & plc expressly disclaims any obligation to disseminate, after the date of this announcement, any updates or revisions to any such forward-looking statements to reflect any change in expectations or events, conditions or circumstances on which any such statements are based.

Exhibit 99.1

FOR IMMEDIATE RELEASE

#### CARNIVAL CORPORATION & PLC REPORTS SECOND QUARTER EARNINGS

MIAMI (06/25/03) -- Carnival Corporation & plc (NYSE/LSE: CCL; NYSE: CUK) reported net income of \$127.8 million (\$0.19 Diluted EPS) on revenues of \$1.33 billion for its second quarter ended May 31, 2003, compared to net income of \$194.2 million (\$0.33 Diluted EPS) on revenues of \$989.9 million for the same quarter in 2002. Earnings per share for the second quarter of 2003 were reduced by \$0.02 per share due to litigation and other charges associated with the dual listed company ("DLC") transaction with P&O Princess Cruises plc ("P&O Princess"). In addition, because of the seasonality of P&O Princess' business, the consolidation of P&O Princess' results reduced the company's second quarter 2003 earnings per share by \$0.01 per share.

Net income for the six months ended May 31, 2003 was \$254.7 million (\$0.40 Diluted EPS) on revenues of \$2.37 billion, compared to net income of

\$323.8 million (\$0.55 Diluted EPS) on revenues of \$1.90 billion for the same period in 2002.

Carnival Corporation and P&O Princess entered into a DLC structure on April 17, 2003, which effectively made Carnival Corporation and P&O Princess a single economic entity ("Carnival Corporation & plc" or the "company"). Also on that date, P&O Princess changed its name to Carnival plc and its year end to November 30. For reporting purposes, Carnival Corporation has accounted for the DLC transaction as an acquisition of Carnival plc. Consolidated financial results for the company for the second quarter and six months of 2003 include the results of Carnival Corporation for the entire period and the results of Carnival plc from April 17, 2003.

Consolidated revenues for the second quarter 2003 increased 34.8 percent primarily due to the inclusion of six weeks of Carnival plc revenues and a 16.6 percent increase in Carnival Corporation standalone capacity, partially offset by lower gross revenue yields (gross revenues per available lower berth day). The decline in gross revenue yields was 7.2 percent in the second quarter, resulting primarily from a decline in cruise ticket prices, lower occupancy levels and reduced numbers of passengers purchasing air transportation from the company. In the cruise industry, most companies, including Carnival, consider net revenue yields as the most relevant measure of revenue performance. Net revenue yields represent gross revenues less the costs of air transportation, travel agent commissions and onboard revenues divided by the number of available lower berth days. Net revenue yields were down 8.6 percent in the second quarter of 2003, largely because of lower cruise ticket prices and occupancy levels. On a pro forma basis for the second quarter, assuming that the DLC transaction was completed and Carnival plc was consolidated for the full quarter in both years, net revenue yields declined 6.7 percent, while pro forma gross revenue yields declined 6.3 percent.

For the second quarter of 2003, operating costs and selling, general and administrative expenses increased 52.5 percent compared to the second quarter of 2002. Approximately \$247 million or 70 percent of the increase was due to the inclusion of Carnival plc and the remainder was primarily due to increased capacity and higher fuel costs. Gross operating costs per available lower berth day increased 5.9 percent compared to the second quarter of 2002. Gross operating costs per available lower berth day on a pro forma basis increased 5.2 percent for the combined entity.

Net operating costs per available lower berth day (excluding costs of air transportation, travel agent commissions and onboard revenues, which are included in the computation of net revenue yields) increased 8.4 percent compared to the second quarter of 2002, largely because of Carnival plc's higher operating cost levels compared to Carnival Corporation and because of higher fuel costs. On a pro forma basis, net operating costs per available lower berth day increased 9.2 percent for the combined entity.

The litigation charge in the second quarter of 2003 relates to the anticipated settlement of claims by Carnival plc shareholders whose tender of over 53 million Carnival plc shares in the partial share offer was wrongfully rejected by the receiving agent, Computershare Investor Services plc. The company has recorded a charge in the second quarter reflecting the full costs of reimbursing those shareholders for their losses. This litigation charge, along with other charges associated with the DLC transaction with P&O Princess, amounted to \$16 million.

"Given the concerns leading up to the war with Iraq and its eventual outbreak, along with the uncertain worldwide economy, we are satisfied with the performance of our brands in this extremely difficult environment for leisure travel," said Micky Arison, Carnival Corporation & plc Chairman and CEO. "We were delighted to complete the DLC transaction with P&O Princess during the second quarter, the largest corporate transaction in our company's history. We have made significant strides in the integration of our two organizations and our integration teams have demonstrated energy and enthusiasm in achieving our integration synergy targets," Arison added.

The company launched several ships during the second quarter of 2003. In the United Kingdom, the 1,610-passenger Ocean Village was introduced under a new brand formed by P&O Cruises UK. The Ocean Village features an innovative "club cruising" concept, aimed at the active, younger traveler. The 2,010-passenger Adonia, a former Princess Cruises vessel, will also operate in the UK within the P&O Cruises UK fleet. In Germany, a new AIDA ship, the 1,270-passenger AIDAaura, entered service. For southern Europe, Costa Cruises' new 2,114-passenger Costa Mediterranea, which entered service just last week, will operate in the Mediterranean this summer.

The company also recently rearranged the shipbuilding schedule of three cruise ships being constructed at Italy's Fincantieri shipyards to accommodate the construction of a new 116,000-ton cruise ship for Princess Cruises in North America. The 3,100-passenger Princess ship is expected to be delivered in May 2006.

Earlier this week, the company announced that Carnival Cruise Lines' 1,486-passenger Jubilee will be transferred to P&O Cruises Australia in the fall of 2004, doubling the size of the brand's operations in the region.

Regarding booking activity and pricing for sailings during the second half of 2003, although booking levels during the period leading up to and during the Iraqi war were approximately equal to the prior year's levels, they did not keep pace with the increase in the company's 2003 capacity.

Pricing for cabins booked during this period was also well below last year's levels. From the period beginning with the end of the war through mid-May, booking levels increased over the prior year to levels approximately equal to the capacity increase in the second half of 2003, but pricing continued to be substantially below last year.

However, during the five-week period between May 19 and June 22, 2003, there has been a more significant increase in booking activity, with booking levels for Carnival Corporation & plc during such period running 54 percent higher than the prior year's levels compared to a pro forma capacity increase of 19 percent in the second half of 2003. Pricing, although still below prior year levels, has also shown the first signs of improvement and the company is hopeful that this trend will continue. Because the booking curve remains very close to sailing, the forecasting of future results is less predictable than prior years. However, the company's best estimates are that net revenue yields, on a pro forma basis for the combined group, will be down between 4 percent to 6 percent for the second half of 2003. The company would expect to see sequential improvement in net revenue yields between the third and fourth quarters, if current booking trends continue.

"Clearly, the gap created by the dearth in bookings during the important wave period in the first and second quarters of this year will have significant impact on our third and fourth quarter results. I am encouraged, however, with the recent acceleration of bookings in both North America and Europe, which, if it continues, should help to set the stage for a stronger financial performance in 2004," Arison said.

Net operating costs per available lower berth day on a pro forma basis in the second half of 2003 are expected to be down slightly compared to the prior year. Based on these estimates, earnings per share for the third quarter are expected to be in a range of \$0.83 to \$0.87 and for the fourth quarter in a range of \$0.24 to \$0.28.

Carnival has three new ships scheduled to enter service over the remainder of the year. In North America, Princess Cruises' 1,970-passenger Island Princess will enter service in Alaska on July 12, 2003, while Carnival Cruise Lines' new 2,974-passenger Carnival Glory will begin sailing July 14, 2003 from Port Canaveral, Fla. Holland America's 1,848-passenger Oosterdam, the second vessel of the line's new Vista-class series, will operate a series of European cruises beginning August 3, 2003.

The company has scheduled a conference call with analysts at 10 a.m. EDT (15.00 London time) today to discuss its 2003 second quarter earnings. This call can be listened to live, and additional information can be obtained, via Carnival Corporation & plc's Web sites at [www.carnivalcorp.com](http://www.carnivalcorp.com) and [www.carnivalplc.com](http://www.carnivalplc.com).

For additional information, including historical quarterly and annual pro forma data for Carnival Corporation & plc, please refer to the joint Current Report on Form 8-K filed on June 25, 2003, with the SEC. These documents can also be viewed on the company's Web sites at [www.carnivalcorp.com](http://www.carnivalcorp.com) and [www.carnivalplc.com](http://www.carnivalplc.com). A copy of the joint Current Report will be available shortly at the UKLA Document Viewing Facility of the Financial Services Authority at 25 The North Colonnade, London E14 5HS.

Carnival Corporation & plc is the largest cruise vacation group in the world, with a portfolio of 13 cruise brands in North America, Europe and Australia, comprised of Carnival Cruise Lines, Princess Cruises, Holland America Line, Costa Cruises, P&O Cruises, Cunard Line, Windstar Cruises, Seabourn Cruise Line, Ocean Village, Swan Hellenic, AIDA, A'ROSA, and P&O Cruises Australia.

Together, these brands operate 68 ships totaling more than 105,800 lower berths with 15 new ships scheduled for delivery between now and mid-2006. Carnival Corporation & plc also operates three riverboats on Europe's Danube River and the leading tour companies in Alaska and the Canadian Yukon, Holland America Tours and Princess Tours. Traded on both the New York and London Stock Exchanges, Carnival Corporation & plc is the only group in the world to be included in both the S&P 500 and the FTSE 100 indices.

\*\*\*\*\*  
Cautionary note concerning factors that may affect future results

Some of the statements contained in this earnings release are "forward-looking statements" that involve risks, uncertainties and assumptions with respect to Carnival Corporation, Carnival plc and Carnival Corporation & plc, including some statements concerning future results, plans, goals and other events which have not yet occurred. You can find many, but not all, of these statements by looking for words like "will," "may," "believes," "expects," "anticipates," "forecast," "future," "intends," "plans," and "estimates" and for similar expressions. Because forward-looking statements, including those which may impact the forecasting of earnings per share, net revenue yields, booking levels, pricing, occupancy, operating, financing and tax costs, costs per available lower berth day, estimates of ship depreciable lives and residual values or business prospects, involve risks and uncertainties, there are many factors that could cause Carnival Corporation's, Carnival plc's and Carnival Corporation & plc's actual results, performance or achievements to differ materially from those expressed or implied in this announcement. These factors include, but are not limited to, the following: achievement of

expected benefits from the DLC transaction; risks associated with the DLC structure; liquidity and index inclusion as a result of the implementation of the DLC structure, including a possible mandatory exchange of Carnival plc shares that may occur under Carnival plc's constituent documents; risks associated with the uncertainty of the tax status of the DLC structure; general economic and business conditions, which may impact levels of disposable income of consumers and the net revenue yields for cruise brands of Carnival Corporation & plc; conditions in the cruise and land-based vacation industries, including competition from other cruise ship operators and providers of other vacation alternatives and increases in capacity offered by cruise ship and land-based vacation alternatives; the impact of operating internationally; the international political and economic climate, the recent military action in Iraq, other armed conflicts, terrorist attacks, availability of air service and other world events and adverse publicity and their impact on the demand for cruises; accidents and other incidents at sea affecting the health, safety, security and vacation satisfaction of passengers; the ability of Carnival Corporation & plc to implement its shipbuilding programs and brand strategies and to continue to expand its businesses worldwide; the ability of Carnival Corporation & plc to attract and retain shipboard crew and maintain good relations with employee unions; the ability to obtain financing on terms that are favorable or consistent with Carnival Corporation & plc's expectations; the impact of changes in operating and financing costs, including changes in foreign currency and interest rates and fuel, food, insurance and security costs; changes in the tax, environmental, health, safety, security and other regulatory regimes under which Carnival Corporation & plc operates; continued availability of attractive port destinations; the ability to successfully implement cost improvement plans and to integrate business acquisitions; continuing financial viability of Carnival Corporation & plc's travel agent distribution system; weather patterns or natural disasters; and the ability of a small group of shareholders effectively to control the outcome of shareholder voting.

Forward-looking statements should not be relied upon as a prediction of actual results. Subject to any continuing obligations under applicable law or any relevant listing rules, Carnival Corporation & plc expressly disclaims any obligation to disseminate, after the date of this announcement, any updates or revisions to any such forward-looking statements to reflect any change in expectations or events, conditions or circumstances on which any such statements are based.

CARNIVAL CORPORATION & PLC  
PRO FORMA REGULATION G INFORMATION

Pro forma gross and net revenue yields and gross and net revenue per diems were computed as follows (1) (10):

	Three Months Ended May 31,	
	2003	2002
	(in thousands, except yields and per diems)	
Cruise revenues	\$ 1,592,937	\$ 1,473,071
Less commissions, air transportation and other	(335,293)	(304,310)
Net cruise revenues	\$ 1,257,644	\$ 1,168,761

ALBD's		9,087		7,877
Gross revenue yields (2)	\$	175.30	\$	187.01
Net revenue yields (3)	\$	138.40	\$	148.38
PCD's (4)		8,925		7,985
Gross revenue per diems (5)	\$	178.48	\$	184.48
Net revenue per diems (6)	\$	140.91	\$	146.37

Pro forma gross and net operating costs per ALBD were computed as follows (1) (10):

	Three Months Ended	
	May 31,	
	2003	2002
	(in thousands, except yields and per diems)	
Cruise operating expenses	\$ 993,484	\$ 824,350
Less commissions, air transportation and other	(335,293)	(304,310)
Cruise selling and administrative expenses	262,969	211,213
Net cruise costs	\$ 921,160	\$ 731,253
ALBD's	9,087	7,877
Gross operating costs per ALBD (7)	\$ 138.27	\$ 131.47
Net operating costs per ALBD (8)	\$ 101.37	\$ 92.83

#### NOTES TO HISTORICAL AND PRO FORMA REGULATORY INFORMATION

(1) Carnival Corporation & plc uses net cruise revenue per available lower berth day ("net revenue yields"), net cruise revenue per passenger cruise day ("net revenue per diems") and net cruise costs per available lower berth day as significant financial measures of its cruise segment financial performance. Carnival Corporation & plc believes that net revenue yields and net revenue per diems are commonly used in the cruise industry to measure a company's pricing performance. These measures are also used for revenue management purposes and to compare the operating performance of the company with its competitors. In calculating net revenue yields and net revenue per diems, the company uses net cruise revenues rather than gross cruise revenues. Carnival Corporation & plc believes that "net cruise revenues" is a more meaningful measure in determining revenue yield than gross cruise revenues because it reflects the cruise revenues received by the company net of its most significant variable costs (travel agent commissions, cost of air transportation and certain other variable direct costs associated with onboard revenues). Substantially all of the remaining cruise costs are largely fixed once the company's ship capacity levels have been determined.

Net operating cost per available lower berth day is the most significant measure used by the company to monitor its ability to control costs. In calculating this measure, the company deducts the same variable costs as described above, which are included in the calculation of net revenues. This is done to avoid duplicating these variable costs in the non-GAAP financial measures described above because these variable costs are directly associated with the revenues earned by the company.

(2) Represent gross cruise revenues divided by ALBD's.

(3) Represent net cruise revenues divided by ALBD's.

(4) PCD's represent the number of cruise passengers multiplied by the number of revenue-producing ship operating days.

(5) Represent gross cruise revenues divided by PCD's.

(6) Represent net cruise revenues divided by PCD's.

(7) Represent gross operating expenses divided by ALBD's.

(8) Represent net cruise costs divided by ALBD's.

(9) In this earnings release, Carnival Corporation & plc has not provided future gross revenue yields or gross operating costs per available lower berth day because it is unable to provide reconciliations of forecasted net cruise revenues to forecasted gross cruise revenues or forecasted net cruise costs to forecasted cruise operating expenses without unreasonable effort. The reconciliations would require Carnival Corporation & plc to forecast, with reasonable accuracy, the amount of air and other transportation costs that its forecasted cruise passengers would elect to purchase from the company (the "air/sea mix"). Since the forecasting of future air/sea mix involves several significant variables and the revenues from the sale of air and other transportation approximate the costs of providing that transportation, management focuses primarily on forecasts of net cruise revenues and costs rather than gross cruise revenues and costs. This does not impact, in any material respects, the company's ability to forecast its future results, as any variation in the air/sea mix has no material impact on the company's forecasted net cruise revenues or forecasted net cruise costs.

(10) The pro forma information gives pro forma effect to the DLC transaction between Carnival Corporation and Carnival plc, which was completed on April 17, 2003. Management has prepared the pro forma information based upon the companies' historical financial information and, accordingly, the above information should be read in conjunction with the companies' historical financial statements, as well as pro forma information included in the companies' joint Current Reports on Form 8-K, dated May 29, 2003 and June 25, 2003.

The DLC transaction has been accounted for as an acquisition of Carnival plc by Carnival Corporation, using the purchase method of accounting. The Carnival plc accounting policies have been conformed to Carnival Corporation's policies. Carnival plc's reporting period has been changed to the Carnival Corporation reporting period and the information presented above covers the same periods of time for both companies.

The Carnival plc pro forma results for the three months ended May 31, 2003 include a reduction of approximately \$13 million due to the major promotion and other expenses incurred by P&O Cruises UK's introduction into service of four vessels: the Oceana, Minerva II, Ocean Village and Adonia. Pursuant to Carnival plc's UK GAAP accounting policies, which were used prior to the completion of the DLC transaction, these expenses would have been initially deferred and then amortized to expense in future periods, instead of being expensed as incurred in order to conform the Carnival plc UK GAAP accounting policies to those U.S. GAAP accounting policies used by Carnival Corporation.

In addition, Carnival plc is expected to receive insurance company and/or shipyard payments related to the Diamond Princess fire and the Island Princess delayed delivery. The present value of these payments, which approximates \$99 million, has been recorded on the balance sheet of Carnival Corporation & plc as a Carnival plc fair value acquisition adjustment. Accordingly, the income originally expected to be recognized by Carnival plc of \$6.8 million, \$40.1 million, \$30.6 million, \$18.2 million and \$3.2 million in the three months ended May 31, 2003, August 31, 2003, November 30, 2003, February 28, 2004 and May 31, 2004, respectively, will not be recognized in Carnival Corporation & plc's results, but will be accounted for as a collection of this receivable by the combined entity.

The above pro forma information has been prepared as if the DLC transaction had occurred on December 1, 2001 and has not been adjusted to reflect any net transaction benefits. In addition, it excludes the costs related to the terminated Royal Caribbean transaction and the completion of the DLC transaction with Carnival Corporation, which were expensed by Carnival plc prior to April 17, 2003. Finally, the pro forma information does not purport to represent what the results of operations actually could have been if the DLC transaction had occurred on December 1, 2001 or what those results will be for any future periods.

Exhibit 99.2

CARNIVAL CORPORATION  
REGULATION G INFORMATION

This Carnival Corporation Regulation G information is being filed solely to meet the technical requirements of the SEC's Regulation G as it relates to Carnival Corporation's earnings releases for the periods noted below.

Gross and net revenue yields and gross and net revenue per diems were computed as follows (1):

Three Months Ended		Three Months Ended	
February 28,		November 30,	
2003	2002	2002	2001
(in thousands, except yields and per diems)			

Cruise revenues	\$1,027,475	\$901,262	\$1,022,082	\$ 945,745
Less commissions, air transportation and other	(202,098)	(183,188)	(178,816)	(183,649)
Net cruise revenues	\$ 825,377	\$718,074	\$ 843,266	\$ 762,096
Available lower berth days ("ALBD's")	5,805	5,060	5,594	5,185
Gross revenue yields (2)	\$ 177.00	\$ 178.12	\$ 182.71	\$ 182.40
Net revenue yields (3) (9)	\$ 142.18	\$ 141.91	\$ 150.75	\$ 146.98
Passenger cruise days ("PCD's") (4)	5,968	5,200	5,713	5,076
Gross revenue per diems (5)	\$ 172.16	\$ 173.32	\$ 178.90	\$ 186.32
Net revenue per diems(6)	\$ 138.30	\$ 138.09	\$ 147.60	\$ 150.14

Gross revenue yields declined .6% in the three months ended February 28, 2003 as compared to the same period in 2002 and increased .2% in the three months ended November 30, 2002 as compared to the same period in 2001.

Gross and net operating costs per ALBD were computed as follows (1):

	Three Months Ended February 28, 2003		Three Months Ended November 30, 2002	
	2003	2002	2002	2001
	(in thousands, except costs per ALBD)			
Cruise operating expenses	\$609,410	\$512,236	\$566,068	\$536,011
Less commissions, air transportation and other	(202,098)	(183,188)	(178,816)	(183,649)
Cruise selling and administrative expenses	169,500	143,776	157,429	148,803
Net cruise costs	\$576,812	\$472,824	\$544,681	\$501,165
ALBD's	5,805	5,060	5,594	5,185
Gross operating costs per ALBD (7)	\$ 134.18	\$ 129.65	\$ 129.33	\$ 132.08
Net operating costs per ALBD (8)(10)	\$ 99.36	\$ 93.44	\$ 97.37	\$ 96.66

Gross operating costs per ALBD increased 3.5% in the three months ended February 28, 2003 as compared to the same period in 2002 and decreased 2.1% in the three months ended November 30, 2002 as compared to the same period in 2001.

#### NOTES TO REGULATION G INFORMATION

(1) Carnival Corporation & plc uses net cruise revenue per available lower berth day ("net revenue yields"), net cruise revenue per passenger cruise day ("net revenue per diems") and net cruise costs per available lower berth day as significant financial measures of its cruise segment financial performance. Carnival Corporation & plc believes that net revenue yields and net revenue per diems are commonly used in the cruise industry to measure a company's pricing performance. These measures are also used for revenue management purposes and to compare the operating performance of the company with its competitors. In calculating net revenue yields and net revenue per diems, the company uses net cruise revenues rather than gross cruise revenues. Carnival Corporation & plc believes that "net cruise revenues" is a more meaningful measure in determining revenue yield than gross cruise revenues because it reflects the cruise revenues received by the company net of its most significant variable costs (travel agent commissions, cost of air transportation and certain other variable direct costs associated with onboard revenues). Substantially all of the remaining cruise costs are largely fixed once the company's ship capacity levels have been determined.

Net operating cost per available lower berth day is the most significant measure used by the company to monitor its ability to control costs. In

calculating this measure, the company deducts the same variable costs as described above, which are included in the calculation of net revenues. This is done to avoid duplicating these variable costs in the non-GAAP financial measures described above because these variable costs are directly associated with the revenue earned by the company.

- (2) Represent gross cruise revenues divided by ALBD's.
- (3) Represent net cruise revenues divided by ALBD's.
- (4) PCD's represent the number of cruise passengers multiplied by the number of revenue-producing ship operating days.
- (5) Represent gross cruise revenues divided by PCD's.
- (6) Represent net cruise revenues divided by PCD's.
- (7) Represent gross operating expenses divided by ALBD's.
- (8) Represent net cruise costs divided by ALBD's.
- (9) Excluding the impact of an increase in capacity weighted toward Carnival Cruise Lines and Costa Cruises, the company's lower priced contemporary cruise products, of approximately \$15.8 million for the three months ended February 28, 2003, net revenue yields would have been \$144.90.
- (10) Net operating costs per ALBD for the three months ended November 30, 2002 and 2001, excluding fuel costs of \$55.8 million and \$43.7 million, were \$87.40 and \$88.22, respectively.

(1) The pro forma information gives pro forma effect to the DLC transaction between Carnival Corporation and Carnival plc, which was completed on April 17, 2003. Management has prepared the pro forma information based upon the companies' historical financial information and, accordingly, the above information should be read in conjunction with the companies' historical financial statements, as well as pro forma information included in the companies' joint Current Report on Form 8-K, dated May 29, 2003.

The DLC transaction has been accounted for as an acquisition of Carnival plc by Carnival Corporation, using the purchase method of accounting. The Carnival plc accounting policies have been conformed to Carnival Corporation's policies. Carnival plc's reporting period has been changed to the Carnival Corporation reporting period and the information presented above covers the same periods of time for both companies. Carnival Corporation & plc are having an independent appraisal performed of all of Carnival plc's cruise ships and intangible assets. Accordingly, it is possible that the fair value of Carnival plc's cruise ships could be less than or greater than their carrying value, thus reducing or increasing pro forma depreciation expense. In addition, amortizable intangibles which have not been valued and amortized in the above pro forma information, could also eventually be recorded and amortized, based primarily upon the appraisals.

The above pro forma information has been prepared as if the DLC transaction had occurred on December 1, 2001 and has not been adjusted to reflect any net transaction benefits. In addition, the pro forma information does not purport to represent what the results of operations actually could have been if the DLC transaction had occurred on December 1, 2001 or what those results will be for any future periods.

(2) Excludes Carnival plc's costs related to its terminated Royal Caribbean transaction and the completion of the DLC transaction with Carnival Corporation, which were expensed by Carnival plc prior to April 17, 2003. The amount of these nonrecurring expenses was approximately \$20.1 million, \$4.6 million, \$24.5 million, \$7.4 million, \$10.9 million and \$79.4 million in the three months ended February 28, 2003 and 2002, May 31, 2003 and 2002, August 31, 2002 and November 30, 2002, respectively.

(3) The Carnival plc pro forma results for the three months ended February 28, and May 31, 2003 and for the six months ended May 31, 2003 include a reduction of approximately \$7 million, \$13 million and \$20 million, respectively, due to the major promotion and other expenses incurred by P&O Cruises UK's introduction into service of four vessels: the Oceana, Minerva II, Ocean Village and Adonia. Pursuant to Carnival plc's UK GAAP accounting policies, which were used prior to the completion of the DLC transaction, these expenses would have been initially deferred and then amortized to expense in future periods, instead of being expensed as incurred in order to conform the Carnival plc UK GAAP accounting policies to those U.S. GAAP accounting policies used by Carnival Corporation.

(4) Carnival plc is expected to receive insurance company and/or shipyard payments related to the Diamond Princess fire and the Island Princess delayed delivery. The present value of these payments, which approximates \$99 million, has been recorded on the balance sheet of Carnival Corporation & plc as a Carnival plc fair value acquisition adjustment. Accordingly, the income originally expected to be recognized by Carnival plc of \$6.8 million, \$40.1 million, \$30.6 million, \$18.2 million and \$3.2 million in the three months ended May 31, 2003, August 31, 2003, November 30, 2003, February 28, 2004 and May 31, 2004, respectively, will not be recognized in Carnival Corporation & plc's results, but will be accounted for as a collection of this receivable by the combined entity.
